Dear Parents/Carers,

Tuesday 13th February 2024

Primary Lunch Menu - New Exciting Launch

We would like to extend our thanks to all parents/carers for sharing your feedback with us regarding primary school lunches. We appreciate all the feedback that we have received and the positive partnerships that have been formed to ensure our pupils have a nutritious, healthy and enjoyable lunch.

Following the feedback we have since had a pupil and parent food tasting session. Pupils were represented from all classes across both GNSA Primary and NPS, where they shared their opinions on a range of menu items on behalf of their class. As an outcome of this, menu items were adapted and co-created.

Parent quote:

You can clearly see massive improvements being made in the look, taste and presentation of the food. I love the collaborative approach the school is taking with involving the kids and parents in this journey, I hope this continues.

Pupil quote:

I was so lucky to represent my class for the food tasting. I couldn't stop eating the spaghetti and gave my feedback on all the dishes. Thank you to the catering team. I can't wait for the new menu.

As a school we have worked extremely hard with our catering team to ensure that whilst taking on all feedback, we are also dedicated to ensuring that we are exposing our pupils to a range of new food items and providing them with a nutritious meal that meets the food standards, putting their health and wellbeing at the forefront.

We are delighted to share our new lunch menu with you, which will launch the first day back after half term. The menu has been created with child friendly language so that together we can further encourage pupils to try new food and enjoy their school lunches. **Spring 2 Menu - [CLICK HERE](#)**

We are also looking into extending the KS1 government funded fruit and vegetable scheme and we will fund for KS2 to have access to fruit during their afternoon playtime.

Thank you once again for your support.

Your sincerely,

Miss Chatur
Vice Principal
